PRODUCT DESCRIPTION

Designer: Foster and Partners

Artemide Orsa LED Pendant

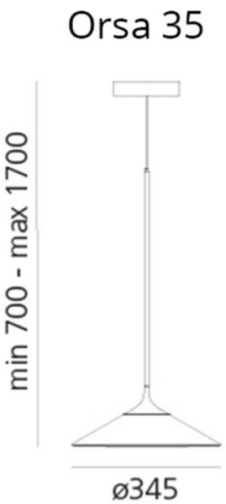

Designed by London-based studio Foster and Partners, the Orsa Pendant is an elegant pendant that embodies precision. The Orsa is free from any unnecessary details or clutter, stripped down to its essential elements to let the light create a larger expression. The flared black metal stem houses an LED, which is covered by a UV-bonded methacrylate cover. The cover was carefully designed to ensure the light source remains invisible, creating the appearance of a floating disk of light.

When illuminated, the Orsa Pendant creates a glare-free, diffused glow, perfect for installing above a coffee table, kitchen island, or at a bedside. Its minimalistic presence suits a wide variety of interiors, both classic and contemporary. The Orsa is an elegant, minimalistic pendant that can be installed as an individual piece or part of a large composition. In commercial settings, the Orso Pendant suits high-end boutiques and modern hospitality settings, adding an ornamental presence and a warm, welcoming atmosphere.
