PRODUCT DESCRIPTION

Designer: Marc Sadler

Foscarini Twiggy Grid Reading LED Outdoor Floor Lamp

The Twiggy Grid reading floor lamp from Foscarini was designed by Marc Sadler and is an elegant standard floor lamp from the iconic Foscarini Twiggy Grid collection. Unlike other floor lamps in this collection and the Foscarini Twiggy collection, this lamp has a straight, vertical arm, providing a sleeker aesthetic. This floor light has an IP44 rating, making it useful for outdoor spaces, whether you want a nice atmosphere for al fresco dining or a light for your balcony.

The Foscarini Twiggy Grid reading LED floor light has a lovely lampshade that has a unique crossed pattern that catches the eye. The integrated LED light bulb emanates a soft glow that looks wonderful as the day turns into night. The inner diffuser also guarantees maximum exploitation of the light source which offers direct lighting on the surface below and reflection of the light upwards. Perfect for home gardens or commercial outdoor spaces this floor light will not disappoint.
