PRODUCT DESCRIPTION

Designer: Greta M. Grossman

Gubi Grashoppa Task Table Lamp

The Gräshoppa Table Lamp, designed by Greta M. Grossman in 1947, epitomises her playful yet functional design ethos. Its tubular brass stand supports an elongated conical shade, which is mounted on a ball joint for easy adjustment. This ensures glare-free, directional light, making it perfect for desks or bedside tables.

The Gräshoppa Table Lamp is as much a decorative object as it is a functional light source. Its compact size and elegant design make it ideal for home offices, living room side tables, or even hotel bedside settings. Available in 4 sophisticated finishes, this lamp complements interiors that value both practicality and style.
