PRODUCT DESCRIPTION

Designer: Michael Anastassiades

Flos Overlap Pendant Light

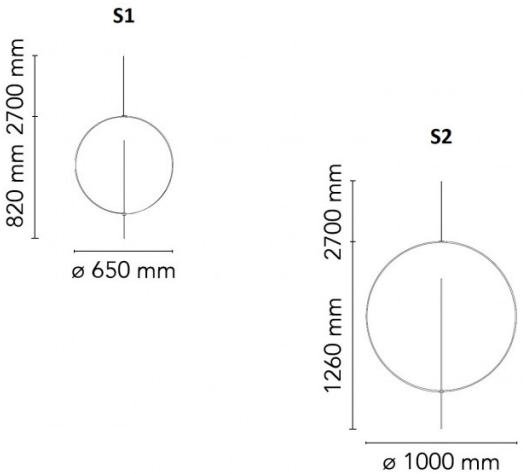

This product is an Offline Only exclusive, available only to buy from selected authorised Flos dealers. Please contact us for pricing or to arrange an appointment to discuss this product in our showroom.

Launched in 2017 at Euroluce by Michael Anastassiades, the Flos Overlap Pendant Light consists of two interlocking rings that intersect at right angles, making the rings almost appear to be pushing through the membrane-like resin. Originally used by the US Army as a protective material for packaging, the cocoon liquid resin, from which the Overlap Pendant is formed, has been used by Flos since the 1960s to create innovative and iconic pieces.

Protected with a transparent spray, the Overlap pendant lamp has a silky finish, similar to that of the cocoons created by butterflies, hence the namesake. Available in two sizes, the smaller S1 and larger S2, this pendant offers a warm, diffused glow. This luminaire is a gorgeous addition to modern living rooms, dining spaces and even offices, as well as larger commercial interiors.
