Axolight Jewel 04 LED Suspension

LA5643/T

PRODUCT DESCRIPTION

Designer: Yonoh Design Studio

Jewel 04 Suspension by Axolight

The Jewel collection was created by the creative studio Yonoh and denotes their first collaboration with Axolight. Since its launch in 2018, the Jewel lights were made of nylon and recycled glass. It was Axolight's way to celebrate the World Environment Day, dedicated to plastic waste. It was a promise that Axolight made, to deliver a high-end designer light into the market, while maintaining environmental sustainability. The Jewel 04 light consists of 4 lights, suspended from a square ceiling canopy (49.6 x 49.6 cm). All Jewel lights are characterised by the double-crossed arch, a peculiar yet distinctive feature; and end with a conical shape which houses the LED source.

It is a light with a streamline and discreet design, and will work perfectly as a standalone or in multiples. The suspension is suitable for any interior space, suggested for both residential and commercial projects. The collection also includes a single Jewel suspension, a suspension with 3 Jewel lights in a linear arrangement and with 10 Jewel lights hanging from a circular ceiling canopy.
