PRODUCT DESCRIPTION

Designer: Yonoh Design Studio

Jewel 10 Suspension by Axolight

The largest light in the collection, comprised of 10 individual Jewel lights suspended from a circular (Ø 49.6 cm) ceiling canopy. The Jewel lights were the first design that Studio Yonoh did for Axolight. It marks their first collaboration, and since then the Jewel has become one of Axolight's classics. Its peculiarity stems from the characteristic double-crossed arch that ends in a conical shape, where the LED source is housed. Jewel 10 was born where design meets sustainability; since its launch in 2018, the Jewel is made of recycled glass and nylon. The lights can be non dimmable, or dimmable via 1-10v dimming systems.

Each light of the Jewel 10 suspension has a streamlined silhouette, with both decorative and functional use. The Jewel lights are the perfect blend or design and sustainability, and Axolight reminds us that we can have both inside a high-end designer product. The Jewel is available as a single suspension, with 3 Jewel lights in a linear arrangement and 4 Jewel lights suspended from a square canopy.

PRODUCT SPECIFICATION

Light Source:	10 x 7.2W, 3000K, 6710 lumens
IP Code:	20
