In The Tube 100-500 Wall Light by DCW éditions

A part of the DCW éditions In The Tube collection by Dominique Perrault & Gaëlle Lauriot-Prévost, the In The Tube 100-500 wall lamp is a clever lighting solution that can be used indoors, outdoors and even in bathrooms. The design duo wanted to produce a wall light that was completely original and unseen. Because of this they have produced a light that takes inspiration from industry whilst maintaining a certain elegance and fragility. They combine mesh diffusers with a metal reflector and a glass tube to create an eye-catching wall lamp that radiates a warm ambience.

The In The Tube 100-500 wall light comes with gold mesh diffusers with your choice of a gold or silver inner reflector and black or transparent stoppers. You can use the In The Tube to line your hallways, light up your washroom or even use it as a gorgeous garden light. A stunning and mesmerising piece, also match with other sizes and versions from the range for stand-out decoration.

This wall fixture is also available with silver mesh diffusers. Please contact us for more details.
