### PRODUCT DESCRIPTION

**Designer:** Éric de Dormaël

### Satellite LED Pendant Light by DCW éditions

The Satellite LED pendant was created alongside the [Lune LED pendant](#), designed by the talented Eric de Dormaël who is primarily a sculptor. Moving into lighting design, he has created pieces that allude to the magic of cosmic space. Beautifully combining varnished brass and glass, this pendant light has an opal finish that is mesmerising and delicate.

The Satellite pendant lamp provides a warm glow that works best when used in multiple for an effective illumination. A gorgeous pendant, the Satellite is also best used in combination with the Lune pendant light for a truly enchanting aesthetic. Simple fragility is at its best with this pendant lamp and will remain timeless in any setting.
