PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Duo Ceiling Dome LED Light

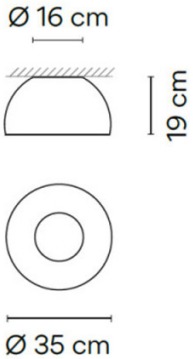

The Vibia Duo Dome LED Ceiling Light aptly embodies its name as it is a light made from two contrasting materials. Designed by Ramos & Bassols, the ceiling lamp has an aluminium exterior which juxtaposes with an oak or walnut interior, creating an interesting and alluring aesthetic. The veneer interior creates a warm appearance, inviting the user in with its natural look, and the white metal exterior subtly blends in with its surroundings, exemplifying modern minimalism.

The Duo ceiling light can be used alone or in multiples to suit your needs. Emitting a downward-directed glow, the illumination also spreads outwards, creating effective light to brighten a space. Use in a wide variety of settings for a simple and useful lighting solution.

Please note, this product is also available in a larger Ø70cm version. Contact us for pricing and information.
