PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Duo Ceiling Dome LED Light

The Vibia Duo Dome LED Ceiling Light aptly embodies its name as it is a light made from two contrasting materials. Designed by Ramos & Bassols, the ceiling lamp has an aluminium exterior which juxtaposes with an oak interior, creating an interesting and alluring aesthetic. The oak interior creates a warm appearance, inviting the user in with its natural look and the white metal exterior subtly blends in with its surroundings, being an example of modern minimalism.

Available in either a flat or angled silhouette and in small or large, the Duo ceiling light can be used alone or in multiple to suit your needs. Emitting a downward-directed glow, the illumination also spreads outwards, creating effective light to brighten a space. Use in a wide variety of settings for a simple and useful lighting solution.
