PRODUCT DESCRIPTION

Designer: Lievore, Altherr, Molina

Vibia Tempo 5778 Pendant

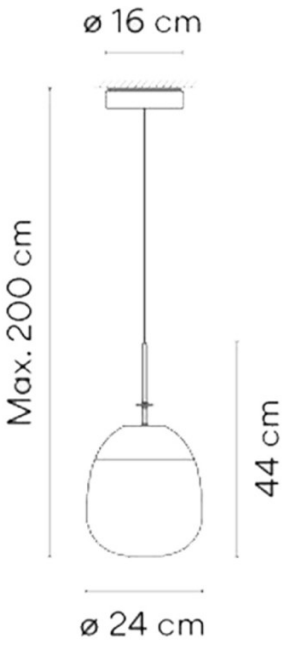

Utilising an asymmetrical blown glass shade, the Vibia Tempo 5778 Pendant produces a cosy and inviting illumination. The lighting solution was designed by Leviore, Altherr, Molina who took inspiration from varying degrees of luminance and the interplay of opacity, translucence and transparency. Due to the versatility of the Tempo, it can be integrated into an array of interiors either individually or in clusters and can suit a range of styles. Featuring LED technology, the light source of the Vibia Tempo 5778 Pendant produces a warm glow that can be easily dimmed to personalise the ambience.

This contemporary design emits a glare-free downlight that is a beautiful addition to living spaces, kitchen islands, dining spaces and even above bedside tables. Although the glass remains untouched, the structure is available in four finish options Graphite, Terra Red, Cream or Green).

Please Note: The Vibia Tempo 5778 Pendant is available with a surface canopy and a 1-10V/Push To Make dimming system as standard. Other variations are available upon request. Please contact us for more information and pricing.
