PRODUCT DESCRIPTION

Designer: Arik Levy

Vibia Structural 2632 LED Ceiling Light

The Vibia Structural 2632 LED Ceiling Light is a contemporary and architectural lighting solution. Designed by Arik Levy, this ceiling light combines a sharp geometric silhouette with a soft but functional illumination. Inspired by ancient architecture, Arik Levy aimed to produce a dramatic ceiling light that could adapt to numerous interiors, this creation projects direct and indirect LED light through cubic volumes to achieve this. The 2632 is the most unobtrusive light in the Structural collection, with a depth of only 15cm it is an ideal lighting solution for environments with low ceilings.

Choose between either a black-grey or grey finish, depending on what suits your style. The Vibia Structural 2632 LED Ceiling Light is a stunning addition to both residential and commercial environments, display it in hallways, kitchens, entryways, reception areas, or even offices. This ceiling light can be displayed individually or in larger groups.
