PRODUCT DESCRIPTION

Marlene LED Pendant by Prandina

The Marlene LED pendant was designed in 2010 by the Prandina team and has a classic design distinguished by its smooth, clean lines. The pendant is made from blown opal white glass which is both elegant and warming. The lampshade diffuses the light wonderfully, creating a nice ambience and a soft glow. The light also directs downwards making it perfect for hanging over tables or as a spotlight.

The simplistic yet effective design makes the Marlene LED pendant light a very versatile and adaptable light that can fit into any setting. The pendant light is available in 3 sizes—Small S1, S1 and S3—making it easy for you to find the right fit for your space. The integrated LED light source also make this pendant an energy-saving and long-lasting light which has a timeless and sophisticated design.

This light is available with a retrofit bulb fitting (bulb excluded). Please click here to find out more.
