PRODUCT DESCRIPTION

Designer: Diego Sferrazza

Farel LED Pendant Light by Luceplan

The Farel pendant is a classic and elegant solution to your indoor space, designed by Diego Sferrazza in 2018. The designer uses a traditional domed silhouette to create a light that emits a downward-directed glow, perfect for hanging over tables and surfaces. The shade is made from beautiful fabric, which has sound-absorbing abilities to help with the room's acoustics.

The Farel pendant light comes with an integrated LED light source, with the choice of either a 2700K (warmest white) or a 3000K (warm white) colour temperature to best suit the surroundings. The sound-absorbing fabric lampshade makes this pendant perfect for bigger spaces where conversation needs to be heard, whether that be a conference room or an art gallery, providing style, function and decoration. Also suitable for smaller rooms in homes and commercial settings, the pendant light comes with the choice of various finishes.

You can choose between **matt black, matt aluminium or matt brass metal fittings** and then a choice of **3 shade finishes** which have a different colour on the outside and inside: **light grey/dark grey, dark grey/white, rust/dark grey and ocher/black.**

PRODUCT SPECIFICATION

Light Source:	**Warmest White**: 23W, 2700K, 1528 Lumen **Warm White**: 23W, 3000K, 1591 Lumen
