

Axolight**Axolight Framework LED Light****LA5726**SOURCE: <https://www.davidvillagelighting.co.uk/product/axolight-framework-led-light/19580>**PRODUCT DESCRIPTION****Designer:** Manuel Vivian**Framework by Axolight**

A light collection that consists of ceiling/wall and suspension lights, with an extruded aluminium, white frame. Framework was designed by renowned interior designer, Manuel Vivian for Axolight. Framework lights are available in three sizes (Framework P, Framework M and Framework G) whether in the suspended or surface mounted version. The ceiling and wall lights are further customisable as they are offered in a option of three different heights/depths (depending on the installation) and can be 13.3, 22.3 or 31.3 cm high/deep from the surface.

Although the Framework lights look wonderful as a standalone, they are even more impressive when multiple lights are used; creating a contemporary lighting installation. Either for open space offices, large reception or seating areas, in venue halls or inside your own home, the Framework lights will become a centrepiece in any interior. The suspension lights emit an upward lighting, which highlights the ceiling as well as the outline of the Framework. The ceiling or wall version of the Framework will also emit light, with a diffused beam onto the ceiling or wall and create a playful game of lights and shadows; with strict, architectural lines. Framework lights also benefit from an integrated LED source of warm white light (3000K). You may also adjust the light brightness, as the lights are all dimmable via DALI dimming systems.

PRODUCT SPECIFICATION

Light Source: **Framework P** - 70W, 3000K, 9920 lumens
Framework M - 70W, 3000K, 9920 lumens
Framework G - 105W, 3000K, 14880 lumens

IP Code: 20

Dimming: Dimmable via Dali dimming systems. Please consult your electrician, additional wiring may be required on site.

Dimensions: **Framework P** - 127 x 65 x 5 cm
Framework M - 127 x 127 x 5 cm
Framework G - 186 x 90 x 5 cm

NOTE: For the ceiling/wall version you can further choose between three heights/depths (13.3 cm, 22.3 cm or 31.3 cm)
