PRODUCT DESCRIPTION

Designer: Dima Loginoff

Axolight Urban Mini LED Pendant

The smaller version of the **Urban Pendant,** the Urban Mini Pendant maintains the post-industrial aesthetic the **collection** is known for. Dima Loginoff designed the Urban for the Italian brand, Axolight. Loginoff utilises minimalistic forms in his designs, an approach that is reflected in the Urban Mini. The Pendant has a deceptively simple-looking geometric shape that houses an integrated LED. Available in three sizes and a wide range of bold finishes, the Urban Mini Pendant can either blend into its environment or provide a striking splash of colour to any setting.

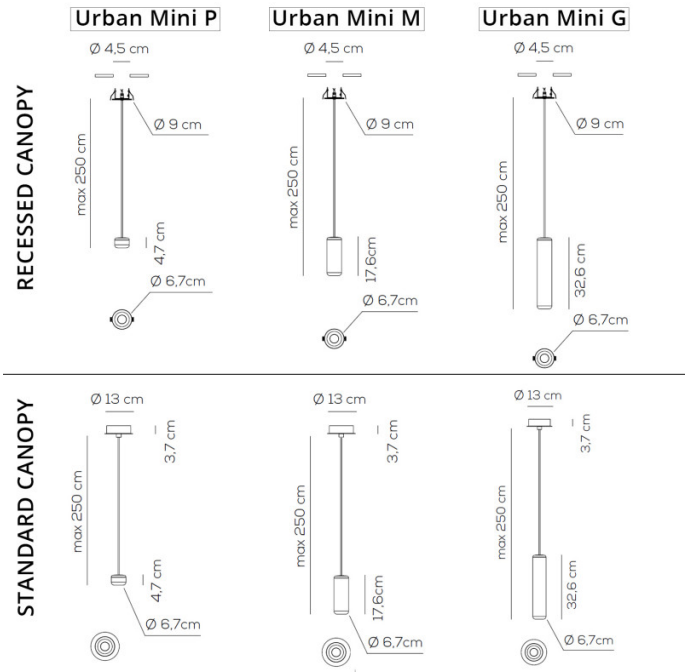

With an integrated LED source, the Urban Mini is energy efficient and emits a warm white, diffused downlight. This functional lighting is perfect for installation in a linear arrangement above tables, bars, receptions or above any area you wish to accentuate. The Urban Mini Pendant will match any interior, whether in residential rooms or contract projects.

The Urban Mini Pendant is available in fifteen bold finishes, including White, Blue, Red, Green, Yellow and Black.

Please note, the Urban Mini with a recessed canopy is not dimmable as standard; a dedicated PSU driver is required. Please contact us for more information and pricing.
