PRODUCT DESCRIPTION

Designer: Jens Fager

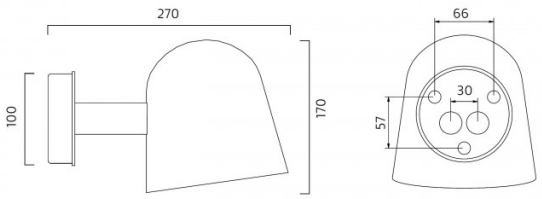

Zero Convex LED Wall Light

A true embodiment of Scandinavian simplicity, the Zero Convex LED Wall Light by Jens Fager combines a subtle, curved form with practical, efficient lighting. Designed for indoor and outdoor use, the Convex wall light is crafted from painted or galvanised steel, making it durable and stylish in various settings.

The matt tempered glass diffuser softens the 9W LED light source (3000K, 505LM), producing warm, effective illumination. Available in black or galvanised steel, the Convex wall light seamlessly integrates into hallways, exterior walls, staircases, and modern interiors. Whether used as a single accent piece or in multiples to create uniform lighting, this fixture is a versatile solution for both residential and commercial spaces.
