PRODUCT DESCRIPTION

Designer: Sergio Prandina

Bloom S5 Pendant Light by Prandina

Designed by Prandina founder Sergio Prandina, the Bloom S5 is a versatile [pendant](#) whose intriguing form is a celebration of duality.

Two blown glass diffusers, in two similar yet different shapes, are joined together facing opposite directions. One shade lights upwards and one shade lights downwards. Both can be independently controlled, making Bloom suitable for a wide variety of different environments. From providing direct lighting over a kitchen island or dinner table to creating an inviting atmosphere in your living room or commercial space, this beautifully simple all-rounder can solve just about any lighting problem you put in front of it; or should that be above it, below it, and around it?

Prandina's Bloom S5 pendant comes in 3 colours, and an [integrated LED version](#) is also available.
