PRODUCT DESCRIPTION

Designer: Monica Förster

Zero Umbrella LED Ceiling Light

Designed for flush installation, the Zero Umbrella Ceiling Light offers the same sculptural form as the pendant version but with a more integrated aesthetic. Designed by Monica Förster, it brings a soft, contemporary touch to ceilings in residential or commercial interiors.

Crafted from opal and painted acrylic, the shade is available in white, black, or green, with an integrated LED source that provides warm, glare-free light at 3000K. The diffuser gently spreads the output, making it an excellent choice for hallways, kitchens, or spaces with lower ceilings where pendant lighting isn't practical.

Please note, dimmable and 4000K options are available for this product. Contact us for pricing and information.
