PRODUCT DESCRIPTION

Designer: David Dolcini

Luceplan Lita Wall / Ceiling Light

Designed by David Dolcini the Lita Wall/Ceiling Light combines timeless and elegant design with natural materials. The beautiful hand blown glass diffuser perches atop a simple disk that serves as a base between the diffuser and the wall/ceiling. Dolcini aimed to create a timeless but very expressive classic. The rounded surface of the glass diffuser hosts a captivating appearance due to the subtle vertical ridges which have been incorporated in to the design, blurring at each end of the sphere and creating delicate and harmonious lines and simultaneously adding a burst of personality to the room.

The Luceplan Lita Wall/Ceiling Light produces a gentle and even glow across the room, with the glass processing producing a harmonious lighting effect. Lita is not only a decorative accessory even when it is turned off, but also provides incomparable mood lighting. The ceiling/wall light comes in three sizes and can be utilised in your hallway, bedroom and even lounge in your home, but can also be used to optimise public spaces such as hotels, restaurants and offices.

PRODUCT SPECIFICATION
