## PRODUCT DESCRIPTION

**Designer:** Davide Groppi

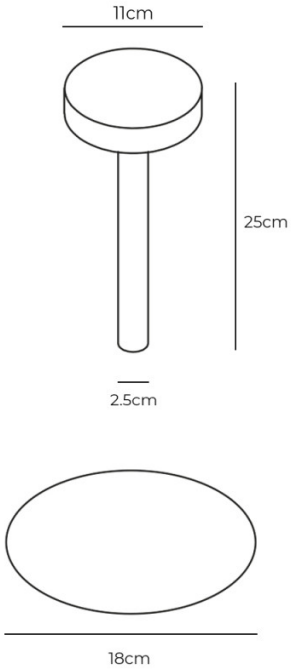

### Davide Groppi TeTaTeT Flute LED Portable Lamp

Davide Groppi TeTaTeT Flute LED Portable Lamp was created in 2017. The inspiration behind this innovative portable was to evolve the original **TeTaTeT LED Portable Lamp** into a magical optical illusion. A rechargeable Lithium battery is hidden in the shade of the portable lamp and sits on top of a transparent methacrylate column to give the effect of a floating light. Its transparent stem has a magnet at the base, which connects to a round metal plate that will hold the lamp in place. The magnetic plate can be hidden from view to create a floating effect.

TeTaTeT Flute LED Portable Lamp has a long-lasting battery life of approximately 9 hours, perfect for use in the hospitality sector, especially in bars, restaurants, and hotels. Whether featured in residential or commercial establishments, the TeTaTeT Flute LED Portable Lamp has a refined design and high-end finish, making it stand out and add a touch of elegance to any interior.
