PRODUCT DESCRIPTION

Designer: Joana Bover

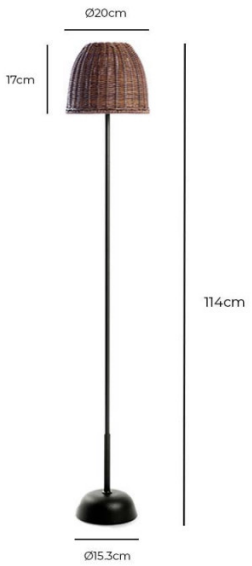

Bover Atticus P/114/R Portable Outdoor LED Floor Lamp

The Bover Atticus Portable Outdoor LED Floor Lamp is the portable version of the Bover Atticus P/114 LED floor lamp, being a handy and stylish light for your exterior. Designed by Joana Bover, the Atticus Portable Floor Lamp boasts a shade made from woven recyclable and non-toxic synthetic fibre, being eco-friendly and environmentally conscious. The structure is made from metal pairing with the natural looking lampshade to create a sophisticated and powerful combination of materials.

The Atticus P/114/R emits a soft, warm glow that is created by the polyethylene globe that conceals and protects the light bulb. Very versatile, this floor light is wireless with an integrated battery that can be recharged, using the charger that is included, and an integrated switch which allows you to choose the strength of the light output. There are three intensity settings: 33%, 66% and 100%. The battery lasts around 12 hours at 100%, around 21 hours at 66% or around 30 hours at 50%. The lamp is also available with either a **natural white structure finish and light beige shade** or a **graphite brown structure finish and brown shade.** Create a wonderful atmosphere and beautiful aesthetic in many outdoor settings.
