Atticus P/114/R Portable LED Floor Lamp by Bover

The Atticus portable floor lamp is the rechargeable version of the [Bover Atticus P/114 LED floor lamp](#), being a handy and stylish light for your exterior. The shade is made from woven recyclable and non-toxic synthetic fibre, being eco-friendly and environmentally conscious. The structure is made from metal pairing with the natural looking lampshade to create a sophisticated and powerful combination of materials.

The Atticus P/114/R LED exterior floor light emits a soft, warm glow that is created by the polyethylene globe that conceals and protects the light bulb. Very versatile, this floor light is wireless with an integrated battery that can be recharged and with a switch that can make the light glow at 50% or 100%. The battery lasts around 5 hours at 100% or around 11 hours at 50%, and the light is available with either a **natural white structure finish and light beige shade** or a **graphite brown structure finish and brown shade**. Create a wonderful atmosphere and beautiful aesthetic in many outdoor settings.
