PRODUCT DESCRIPTION

Anglepoise Type 90 Mini Mini Desk Lamp

Launched in 2018, the Type 90 Mini Mini desk lamp is a revolutionary lamp that is completely dedicated to helping you complete tasks. With a tiny stature, the Type 90 Mini Mini desk light is very versatile and compact, allowing for directional light. Like all Anglepoise lamps, it can be moved and adjusted how you see fit, with a shade that can be rotated and tilted and an arm that can be angled. What sets this light truly apart, though, is the ability for the whole lamp to swivel 360° from its base.

The desk lamp comes with a USB cable that can be plugged into a laptop or simply into the wall, allowing you to use it for a variety of different tasks. The Mini Mini desk lamp comes with an integrated LED bulb, which is dimmable, meaning you can forget the hassle of replacing a bulb and be assured that it will last for up to 20,000 hours. Its dimmable function means you can use the handy desk light for anything, whether you need a bright light for work or an atmospheric light for bedtime.

The Type 90 Mini Mini desk lamp shows how Anglepoise have made a splash in the 21st Century, adapting to the modern era, whilst still providing iconic, chic and timeless design. With a range of lovely colours to choose from, this is the perfect desk lamp for taking up little room and for being versatile.
