

# Diesel with Foscarini Container

LA5813

SOURCE: <https://www.davidvillagelighting.co.uk/product/diesel-with-foscarini-container/19748>

## PRODUCT DESCRIPTION

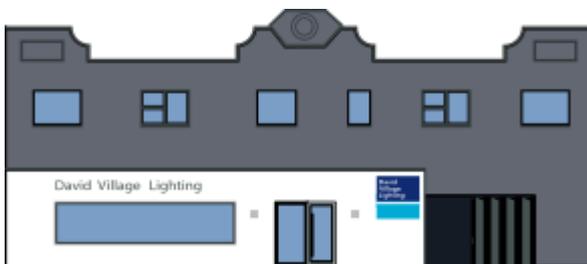

### Diesel with Foscarini Container

A model with a forceful character that brings a typical industrial form into homes and public spaces, transforming it as an integral part of the domestic landscape. A volume made of a metal foil mechanically bent, that reproduces the unique container contour. The rivets that close the metal corners aesthetically emphasize the industrial character of the parallelepiped. The container is available in black, and the handcrafted painting surface aims to recreate the typical worn-out conditions of a container which travels around the world in the open air by ships or trains. The diffused light radiates upwards and downwards, its important presence and light make it ideal for being positioned over a table either individually or in multiple compositions.

Lamp included: 2 x 28W E27

## PRODUCT SPECIFICATION

- IP Code:** 20
- Dimming:** Dimmable via mains phase dimming
- Dimensions:** 85 cm length  
27 cm shade height  
35 cm shade width  
340 cm cable length
