PRODUCT DESCRIPTION

Designer: Christian Flindt

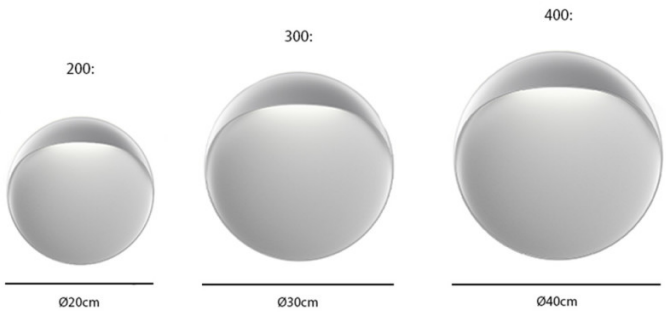

Louis Poulsen Flindt LED Wall Light

Winner of the Danish Design Award 2019, the Flindt wall light from Louis Poulsen is a sculptural light, bringing a bold design for both outdoor and indoor use, both for domestic use and hospitality. The IP rating 65 allows you to install it anywhere, and the integrated LED source emits a soft downlight. The Flindt wall lamp is meant to be mounted below shoulder length to avoid any glare when walking by it. There is a small opening at the back of the frame, allowing for a tiny strip of light to escape, enveloping the wall light and giving it a perception of depth as if floating from the wall.

Designed by Christian Flindt, who experimented with 3D printing and light design to create a light with the perfect proportions. This wall lamp is available in three sizes, a diameter of 20cm (Ø200), 30cm (Ø300) or 40cm (Ø400) and in four colours, white, aluminium, carten or black. You can also select the colour temperature from warmest white (2700K) and warm white (3000K).

PRODUCT SPECIFICATION

Light Source:	**Ø200**: 10W, 2700K/3000K, 321/331 Lumens **Ø300**: 16W, 2700K/3000K, 495/510 Lumens **Ø400**: 20W, 2700K/3000K, 751/774 Lumens
IP Code:	65
