PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

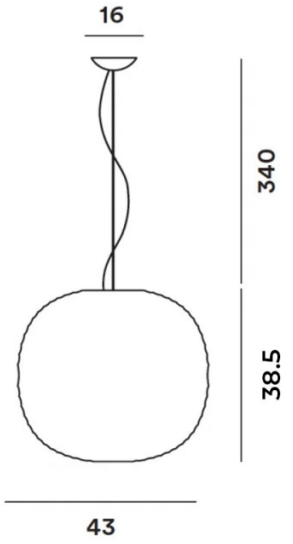

Foscarini Gem Pendant Light

The Foscarini Gem Pendant Light is an elegant and beautiful light designed by iconic duo Ludovica and Roberto Palomba. Crafted from high-quality blown glass, the shade boasts an interesting texture and a peaceful aesthetic that makes it visually stunning. Ludovica and Roberto Palomba wanted to incorporate the movement of sound waves in this contemporary design, with the patterns in the glass resembling fluid lines and adding a unique touch to an otherwise neutral suspension light.

The rounded lampshade diffuses the light source, creating a warm glow that will spread far into the room resulting in a warm and inviting ambience. Thanks to the white finish and minimalistic form, the Foscarini Gem can be utilised in a range of settings and accommodate numerous personal styles. The Gem Pendant is perfect for use in many settings, whether used singularly or in multiple - suitable for residential homes and more grand commercial interiors such as hotels, galleries, restaurants and more.
