## PRODUCT DESCRIPTION

**Designer:** Ludovica & Roberto Palomba

### Foscarini Soffio LED Table Lamp

The Soffio LED Table Lamp was designed by duo Ludovica and Roberto Palomba, and released in 2018. The table lamp is characterised by its glass structure and fading aesthetic, going from transparent at the bottom to solid white at the top. The fading effect makes it elegant and refined, lending an interesting and intriguing look to the space. The included LED light source is completely concealed and the design means the light spreads evenly and far throughout the room, in a warm and comforting way.

The Soffio LED table light has a touch integrated on the top aluminium disc, making it very user-friendly and versatile. The table light is quite large and yet unimposing, making it wonderful for lighting up the space and creating the exact ambience you want. Suitable for domestic and professional settings, use in lounges, living areas, bedrooms and more to add a classic and graceful flourish to your interior.
