PRODUCT DESCRIPTION

Designer: Aino & Alvar Aalto

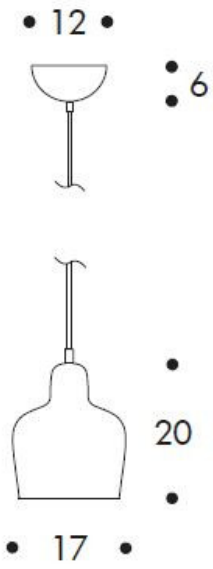

Artek A330S Golden Bell Pendant

The Artek A330S Golden Bell pendant light, designed by Aino and Alvar Aalto in 1937, is a perfect blend of modernist form and warm, functional lighting. Originally crafted for The Savoy Restaurant in Helsinki, this pendant has since become a design classic, praised for its simple elegance and high-quality craftsmanship. The perforated brass or steel shade allows light to diffuse softly, creating a warm and inviting glow while the perforations at the bottom cast a delicate halo effect. Its timeless form, with clean curves and minimal ornamentation, makes the Golden Bell ideal for various interiors, from dining rooms to hallways and kitchens.

Available in brass, black, chrome, and white finishes, the Golden Bell is highly versatile. It can serve as a feature light in intimate settings or be arranged in clusters for a bolder statement in larger spaces. The Golden Bell's robust yet refined construction ensures it stands the test of time, while its warm lighting effect adds atmosphere to any room. A favourite of architects and interior designers, this pendant brings a sculptural touch to both residential and public interiors, offering a piece that transcends trends while retaining its iconic status in modern design.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W E27 (Excluded)
IP Code:	20
