PRODUCT DESCRIPTION

Designer: Alvar Aalto

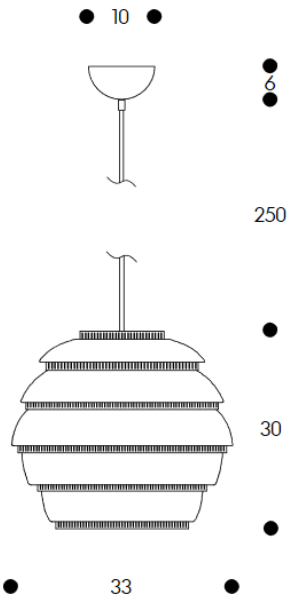

Artek A331 Beehive Pendant

The Artek A331 Beehive pendant light, designed by Alvar Aalto in 1953, is one of his most iconic designs. The distinctive shape, formed by layers of perforated steel rings, gives the pendant its nickname, "Beehive." These rings allow light to filter through gently, casting a soft, ambient glow that enhances the atmosphere of any space. The design is both sculptural and functional, making it a standout feature whether illuminated or not. Its clean lines and carefully balanced proportions are typical of Aalto's approach to lighting, where practicality meets artistry.

The Beehive pendant is available in white/brass, white/chrome, and black/brass finishes. This versatility means the pendant can be used in a variety of settings, from residential dining rooms to commercial offices. Whether installed as a focal point over a dining table or used to create ambience in a living room, the Beehive adds a sense of warmth and sophistication. Its timeless design continues to be admired by design enthusiasts and professionals alike, cementing its place as a classic in the world of modern lighting.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W E27 (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming
Dimensions:	Height: 30cm Width: 33cm Cable Length: 250cm
