PRODUCT DESCRIPTION

Designer: Calvi Brambilla

Superficie LED Wall/Ceiling Light by Foscarini

The Superficie LED ceiling/wall light is a versatile, contemporary and stylish light that can be used in many spaces. Designed by studio Calvi Brambilla, the wall/ceiling light is characterised by its oval shape, with clean, sleek lines that make it decorative and appealing. The light also plays with waveforms, with a gentle undulating central pattern, playing with the concept of light and shadow.

The Superficie LED wall/ceiling lamp has an integrated LED light source which is concealed by the white diffuser, producing a strong and effective glow that is completely glare-free. Suitable for many settings, this light can be installed vertically or horizontally, alone or in multiple to suit your lighting and design needs.
