PRODUCT DESCRIPTION

Designer: Antoni Arola

Santa & Cole Sin Table Lamp

The Sin table lamp was designed by Antoni Arola in 2013 and takes its name from the Spanish term for without as it can be used without a lampshade. Arola uses LED technology around a ring, creating a halo effect and a luminous glow that is effective and efficient. The table light is made from metal and has a simple and clear silhouette, with two discs connected by a slim stem. The ring of light looks as if it is floating, creating an ethereal aesthetic in any space.

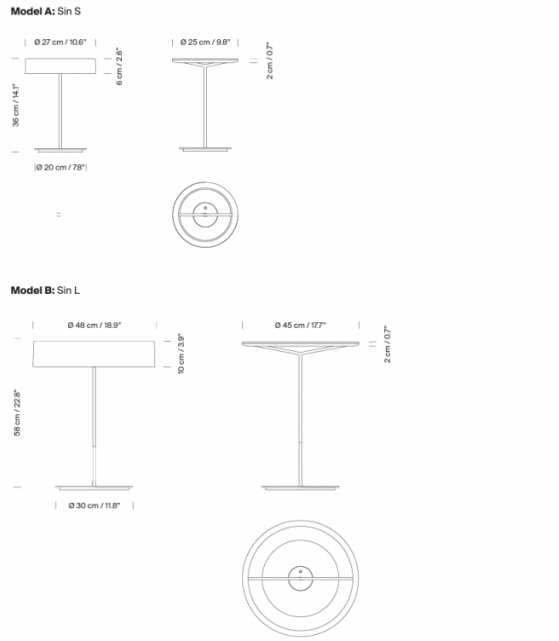

The Sin table light is available in a graphite or white colour finish and can be bought with no shade, a graphite aluminium shade, a white aluminium shade or an opal white methacrylate shade. With no shade the light source is exposed and spreads out and with a shade, the light is diffused. Choose between a small or a large to find the right size for your interior and needs.
