PRODUCT DESCRIPTION

Designer: Norm Architects

Bank Pendant by Audo Copenhagen

The Bank pendant lamp was designed by Norm Architects, a frequent collaborator of lighting brand Audo Copenhagen. Norm Architects are so named as they strive to use the traditions and norms already within design and architecture. Taking from the traditions of Scandinavian design, the group create objects of simplicity and elegance, two things which this beautiful pendant light embodies.

Made from mouth-blown glass with a chic black metal fitting, the Bank pendant exhibits a soft, rounded silhouette which is graceful and minimalist in nature. The lampshade is made from opal glass, providing diffused illumination. The pendant lamp can be used as accent lighting or as main lighting, depending on whether used alone or in multiples. Suitable for a wide variety of settings, the Bank pendant light brings the best of Nordic design and refinement to any interior.
