Marset Sun LED Ceiling/Wall light

Created in 2016 by Spanish design studio Yonoh, Sun ceiling/wall light provides a sense of well being as well as inject character to the space around. Marset Sun is inspired by the early hours dawn, when the light of the sun breaks upon the horizon.

"Each of Sun's different materials reflects the light in its own way, much as what happens at the exact moment when the night's darkness gives way to the light."

Sun by Yonoh studio is design to be playful, producing a warm and welcoming light which can be installed on both the ceiling and wall. Available in two neutral toned colours, the Sun light is a versatile design feature which can work well in domestic and commercial spaces. This minimal design has a good amount of light output which is ideal for hallways and social areas.
