PRODUCT DESCRIPTION

Designer: Morten & Jonas

Northern Blush LED Pendant

Morten & Jonas designed the Blush Pendant for Northern. The attractive pendant has a sleek and simple form and blends seamlessly in with its interior. When illuminated, the light emanated paired with the bold colours of the shade allow the pendant to take centre stage with an eye-catching display. The Blush Pendant is part of [The Blush Collection](#) which features a wall light and rail pendant. These can be combined to create a cohesive display throughout your home.

The Blush Pendant is available in 3 bold finishes: Rusty Red, Black, and White. The inside of the shade is white, to optimise the reflection of light. The light emitted is a direct downward light, perfect for task lighting above a desk, kitchen island, or dining table. Alternatively, they can be installed in multiples in a row, running the length of a hallway. The Blush Pendant is ideal for both commercial and domestic interiors. With the freedom to mix and match the size and colours of your display, they are a versatile solution for a range of spaces.
