PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

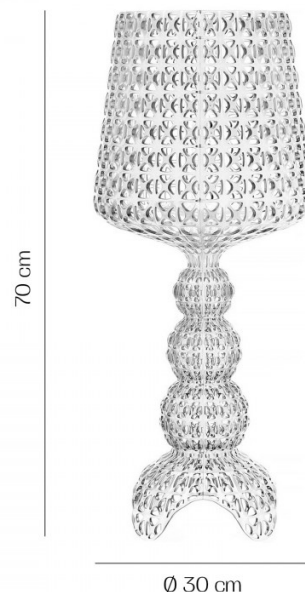

Mini Kabuki LED Table Lamp by Kartell

Designed by Kartell art director Ferruccio Laviani, Mini Kabuki is a table-top addition to the [Kabuki Family](#). Mini Kabuki maintains the unique woven structure of the Kabuki range, with its lace-like, embroidered appearance the result of a highly sophisticated injection moulding process. It is also made of polycarbonate 2.0 from mass-dyed or transparent renewable raw material as part of Kartell's sustainability initiative Kartell Loves the Planet.

Its intricately perforated surface diffuses the light produced by the integrated LED light source into playful patterns, emitting a warm, ambient glow which is perfect for creating an intimate atmosphere in any living room, bedroom, or conservatory, or anywhere you might like to read. The contrast between its baroque aesthetic and modern construction is one of Laviani's signatures (see his [Bourgie Table Lamp](#) for another example) and allows it to look just as appropriate in a contemporary environment as it does in a classical one.

Mini Kabuki is available in 5 transparent or opaque colour options, and is the perfect complement to your [Kabuki Floor Lamp](#), [Outdoor Floor Lamp](#), or [Pendant Light](#).

PRODUCT SPECIFICATION

Light Source: 8.4W, 2700K**IP Code:** 20**Dimming:** In-line dimmer included on cable.**Dimensions:** 70 cm height
30 cm width
