PRODUCT DESCRIPTION

Designer: BIG

Artemide Gople Suspension Light

Artemide Gople Suspension Light focuses on the hand-blown glass diffuser through a simple suspension format that provides both feature and ambient lighting. Designed by BIG, Bjarke Ingels Group, it received the 2018 MUUUZ International Awards and Interior Design Best of Year Awards in the lighting pendant category.

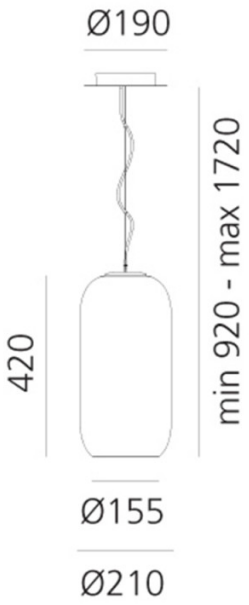

The innovative PVD metal vacuum deposition process is used for blue, copper, bronze, and silver finishes, whereas the white version fuses white glass with crystal. Every piece is unique, highlighting the traditional craftsmanship involved in the blowing process.

Artemide Gople Suspension Light is available in Blue, Bronze, Copper, Silver, and White glass paired with aluminium. This model is intended for indoor use and is most suited for placement over dining tables or kitchen islands.

The canopy and fittings for this product come in silver as standard; additional black and white colour options are available. Please contact us for information and pricing.
