PRODUCT DESCRIPTION

Designer: Patrick Norguet

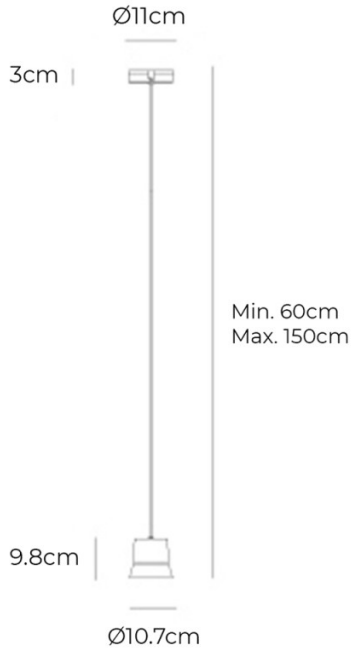

Artemide Giò Light LED Pendant

The motto behind the design of Artemide Gio was 'make more with less', and that was the main focus of the designer, Patrick Norguet. The Gio Light is a timeless, non-obtrusive object that will light up any room, providing a directed downlight onto the surface or space below. You can install the pendant in any space, which suits both residential and public environments. A long cord means that the height is adjustable and can be hung in both high-ceiling spaces as well as smaller interiors.

Gio Lights are available in a choice of two colour options: black or white, and the pendants can be installed in a cluster to create your own unique installation. The collection also includes the **Gio Light Decentrata** with a decentralised installation, which permits adjusting the pendant at different heights.
