PRODUCT DESCRIPTION

Designer: BIG

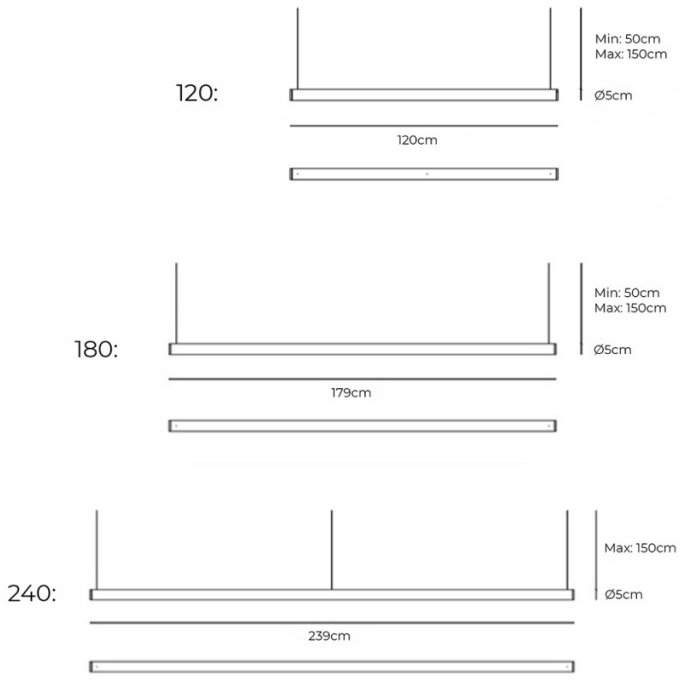

Artemide Alphabet of Light Linear Suspension

Designed by BIG (Bjarke Ingels Group), the Artemide Alphabet of Light Linear utilises clean lines and modern technology to generate a striking lighting solution that can be incorporated into a range of interiors. Alphabet of Light is fitted with LED technology and produces a smooth, glare-free illumination, ideal for above workspaces, reception desks and contemporary dining areas. This luminaire is a minimal presence that encompasses highly innovative optoelectronic and patented mechanical components.

The Alphabet of Light Linear is available in three lengths, each of which can be installed individually or in multiples to create a more dramatic installation for larger interiors. You can also choose to mix and match your Alphabet of Light with the **Circular Suspension** for a more interesting design.
