PRODUCT DESCRIPTION

Designer: Mercedes-Benz Style

Artemide Ameluna Suspension App Compatible

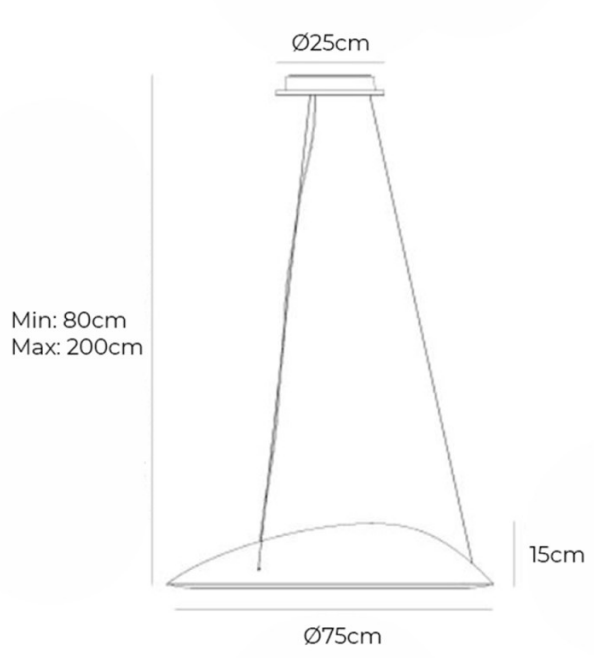

The Artemide Amulena Suspension is a unique design created from the collaboration between the Italian lighting brand and Mercedes-Benz. Both companies have always been human-centred, prioritising how the end user experiences and interacts with the final product. The name Ameluna comes from combining Artemide, Mercedes-Benz and luna, which in Italian means moon. This contemporary luminaire harnesses a distinct silhouette, with a transparent body and an aluminium frame.

The Ameluna Suspension is compatible and controlled via the Artemide App, allowing you to change the light intensity easily from your tablet or phone. This also provides you with optimal personalisation in order to generate the ambience best for you and your needs.

Please Note: This suspended light is also available as an RGB version, allowing you to personalise the colour of the light source for a more creative and eye-catching installation. Contact us for more information and pricing.
