PRODUCT DESCRIPTION

Designer: Ross Lovegrove

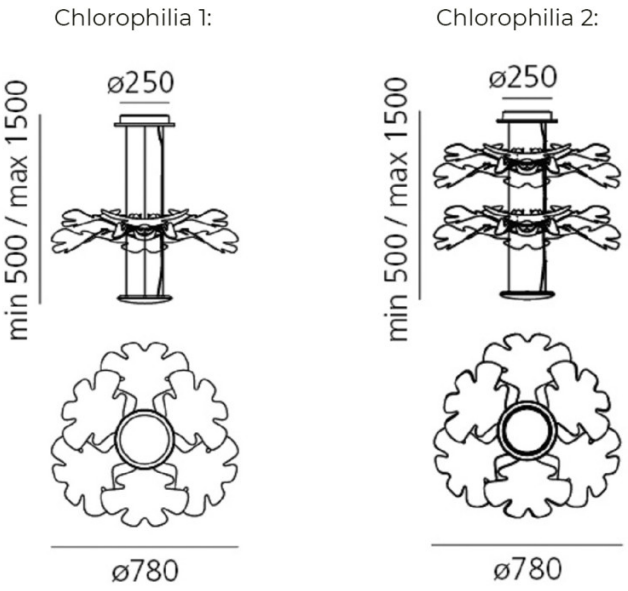

Artemide Chlorophilia App Compatible Pendant

Ross Lovegrove designed the Chlorophilia, a stunning suspension light bearing both Lovegrove's human and resourceful approach, along with Artemide's know-how. This luminaire has a clear organic form, with leaf-like shades, which interact with the space, and is available with either one or two shades. The result is an eye-catching design that generates evenly dispersed accent lighting. Both sizes of the Chlorophilia add a unique aesthetic to your space and are a beautiful addition to residential and commercial interiors.

The Artemide Chlorophilia Suspension is App-enabled; the intuitive and user-friendly Artemide App can be used to control individual lights or groups of lights both in your home and in a commercial setting. Simply download the App to your mobile or tablet device and control your Artemide App-enabled light via Bluetooth connection. One feature which Artemide App allows you to adjust the dimming settings of your Artemide light. Further information about the App and its other features can be found **here**.
