PRODUCT DESCRIPTION

Designer: Michele De Lucchi

Artemide Ipno LED Pendant

The Ipno Pendant Light was designed by Michelle de Lucchi for the Italian lighting brand Artemide. Blending traditional and classic design, but fitted with the latest technology, ensuring a high-quality lighting output. The Artemide Ipno Pendant is a refined luminaire with a magical effect that can be used in a variety of settings.

The illumination of the Ipno is emitted through the material in a direct way, with no glare, and the light source works with a Total Internal Reflection (TIR) to direct the light emission. Ipno is perfect to be installed low above a desk or office, dining tables and is excellent for both domestic and hospitality use. The black and gold finishing makes it a perfect addition to both classic and contemporary spaces.
