PRODUCT DESCRIPTION

Designer: Neil Poulton

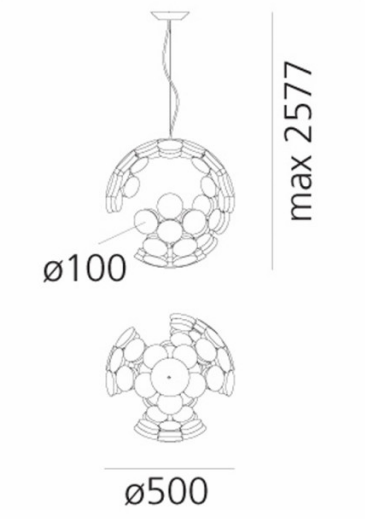

Artemide Scopas LED APP Compatible Suspension

The Scopas Suspension is an intriguing take on the traditional chandelier. Created by Scottish designer Neil Poulton, Scopas is characterised by its incomplete aesthetic. Numerous lighting modules form the majority of a sphere, while empty spaces have been intentionally left for a unique perspective. This well-considered omission of matter allows the Scopas to take various forms depending on the angle from which it's viewed.

The apparent incompleteness of the Scopas Suspension is contrasted with its technical efficiency. The integrated LED light source provides energy-efficient lighting that is diffused into a soft glow for a comfortable ambience. Dim via the Artemide App for easily adjustable lighting to suit any mood. The Scopas Suspension is well-suited to hospitality and retail settings such as high-end boutiques or contemporary restaurants for a dynamic display that will leave a lasting impression.

PRODUCT SPECIFICATION

Light Source:	80W, 3000K, 2826 Lumens
