PRODUCT DESCRIPTION

Designer: Carlotta de Bevilacqua and Laura Pessoni

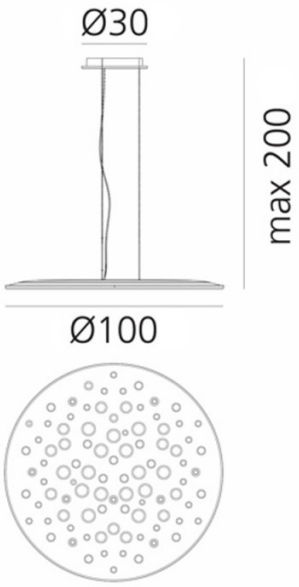

Artemide Silent Field LED 2.0 Direct + Indirect Suspension

The Silent Field 2.0 Suspension is a lighting solution that does not invade the room but rather becomes part of it. Both the upper and the lower surfaces of the body feature sound-absorbing properties, optimised for the frequencies of the human voice. This is achieved through the hollow, crater-like shapes throughout the suspension, which capture sounds while the varying thickness of the surface absorbs various frequencies of sound.

The Silent Field 2.0 Suspension is available in three bold colourways: Orange, Black, and White, adding a splash of colour and strong personality to any interior. When switched on, the suspension creates both direct and indirect lighting to fill the surrounding room with light while providing functional lighting for the space below. This effective lighting, paired with the suspension's sound-absorbing properties, makes it well-suited to commercial office spaces to enhance visual and acoustic comfort.

PRODUCT SPECIFICATION

Light Source:	**Direct**: 35W, 3000K, 2085 Lumens **Indirect**: 40W, 3000K, 3191 Lumens
IP Code:	20
Dimming:	Push to make/switch dimming or DALI dimming systems. Please consult your electrician; additional wiring may be required on-site.
Dimensions:	Ø100cm Maximum Drop Height: 200cm Ceiling Rose: Ø30cm
