Kizu Table Lamp by New Works

An iconic and bestselling table lamp from New Works, the Kizu table light perfectly shows how contrasts in design can work symbiotically. The table lamp has a lightweight, domed white lampshade that sits atop a heavy marble base, looking perfectly balanced and centred. The shade provides a soft illumination and creates a sculptural form that is enticing and alluring.

The Kizu table lamp is available in 3 colours, white marble, black marble or, the newest finish, gris du marais and is available in either a small or large size. This table light comes with a dimmer switch so you can create the best ambience for your space and the elegant and stylish aesthetic will look wonderful in any interior.
