PRODUCT DESCRIPTION

Designer: S.R. Cornelissen

Artemide Architectural Tagora LED Ceiling Light

Tagora Ceiling offers clean geometry and reliable performance for hallways, work areas and hospitality spaces. The 80 and 270 sizes deliver focused beams for task or accent, while 570 and 970 bring soft general illumination through a diffuser. Two-tone combinations let you shift the visual warmth and expression to suit the interior.

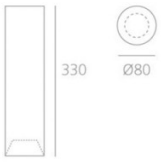

Select 3000K or 4000K outputs with DALI or non-dimmable drivers where available. Pure Integralis variants add APP control for specific applications. Combine sizes to balance directionality and ambience across larger rooms.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.
