PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Spring LED Pendant

The Spring Pendant by Tom Dixon is an elegant geometric design that is likened to a whisk and crafted from stainless steel ribbons that form around a central LED module. The abstract shade can be stretched out or flattened depending on your desired silhouette, and for this reason, many compare the style of the Tom Dixon Spring to a spirograph drawing, flying saucer or a pumpkin. The brass finish adds a sophisticated touch to the design and allows the fighting output to be warmed, generating an inviting illumination that produces unique light patterns due to the gaps in the shade.

This luminaire can be dimmed, allowing you to personalise the ambience created in your interior, and makes a beautiful addition to dining spaces, whether installed individually or in clusters. The two sizes allow you to create custom configurations and allow the Tom Dixon Spring LED Pendant to adapt to a variety of environments.

The integrated LED module of the Tom Dixon Spring Pendant is fully serviceable and a replacement module can be supplied. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens

IP Code: 20

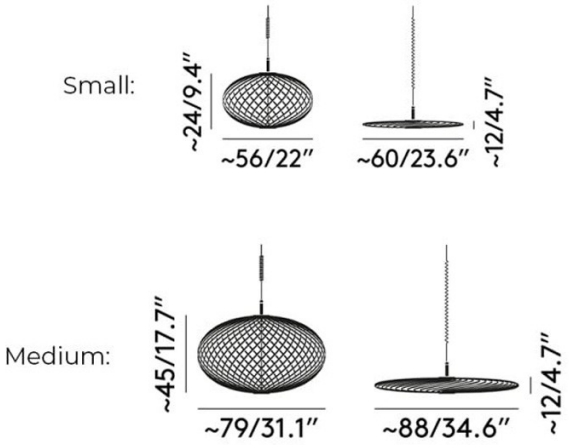

Dimming: Dimmable using leading edge and trailing edge.

Dimensions:

Small:
Width: 56cm-60cm
Height: 12cm-24cm

Medium:
Width: 79cm-88cm
Height: 12cm-45cm

Cable Length: 250cm
