Tom Dixon.

Tom Dixon Spring LED Pendant

A brand new and launching at Euroluce Milan! SPRING is a range comprising of 3 pendants and two colour options. The design is likened to a whisk, with stainless steel ribbons which form around the central LED. This allows the pendant body to collapsed during delivery and be adjusted for a truly unique display.

Many liken the style to a spirograph drawing, flying saucer or a pumpkin!

Tom Dixon's new LED integrated light source is repairable once it's initial life of 50,000 hours is up.

IP Code: 20

Dimming: Mains phase triac, dimmable using leading and traileed edge systems.
