PRODUCT DESCRIPTION

Designer: 967arch

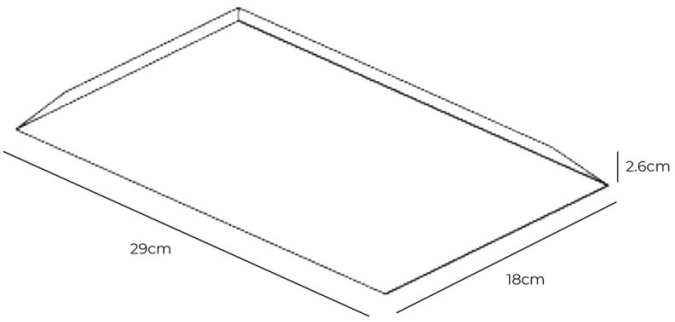

Davide Groppi Foil LED Wall / Ceiling Light

Davide Groppi Foil LED Wall / Ceiling Light was designed by 967arch in 2011. A luminaire that amazes with skill, so you only notice its two-dimensional effect. Although it's there, you can't see the depth. Its geometric shape provides a minimalistic aesthetic which can be featured in both a commercial and residential setting.

The Foil LED Wall / Ceiling Light is a rectangular LED lighting solution which emits an upward glow and has been given a metallic black finish. Foil is an ideal choice for anyone who wants to highlight a ceiling, wall details or artwork. Its upward-facing lighting helps accentuate all details.
