Tom Dixon Opal Surface Light LED - 25cm

A one of a kind design, delicate in its form and a minimal sleek design.

Tom Dixon opal shade is an especially developed material: opalescent polycarbonate made with Tom Dixon's German engineering partners. For a minimalist look, Tom Dixon has removed the traditional bulb to the latest LED tech. An opal finish creates a comfortable ambience.

This unique material is shatterproof, making it almost indestructible.

Tom Dixon's new integrated LED light source is repairable after its lifetime of 50,000 hours.

IP Code: 20
